Thesis Apps

1. Akses Melalui Binusmaya
2. Akses Menu Thesis Apps

1. Akses **BINUSMAYA** melalui ***https://binusmaya.binus.ac.id/***
2. Pilih **Sign in with Microsoft**
3. Login menggunakan **Email binus.ac.id**
4. Klik **Next**

5. Klik Menu 
6. Pilih **Thesis Apps**
7. Setelah itu akan muncul **Halaman Utama** dari Thesis Apps

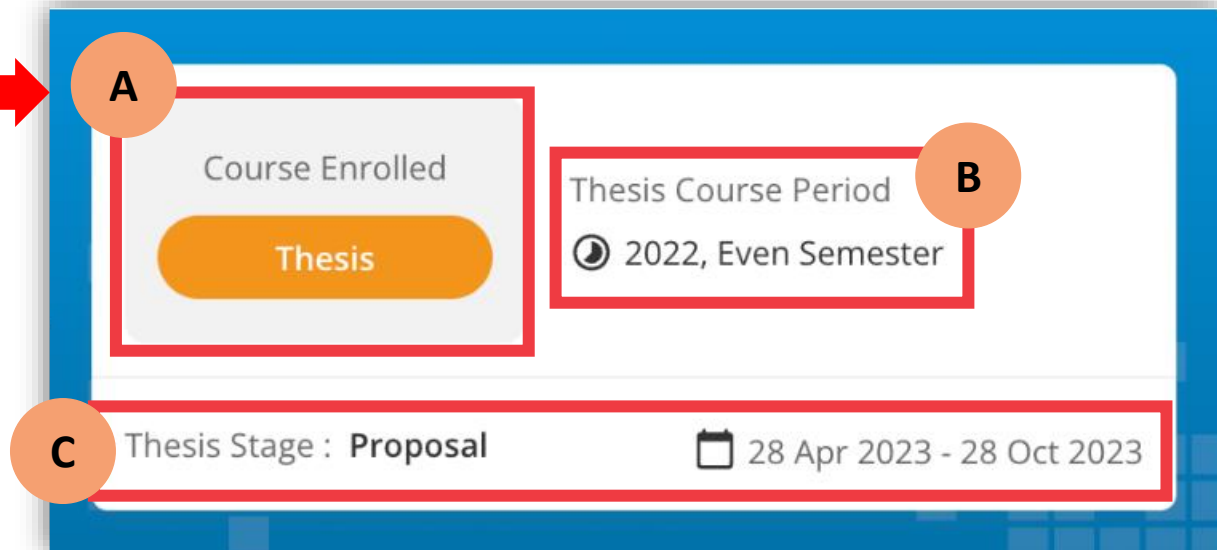

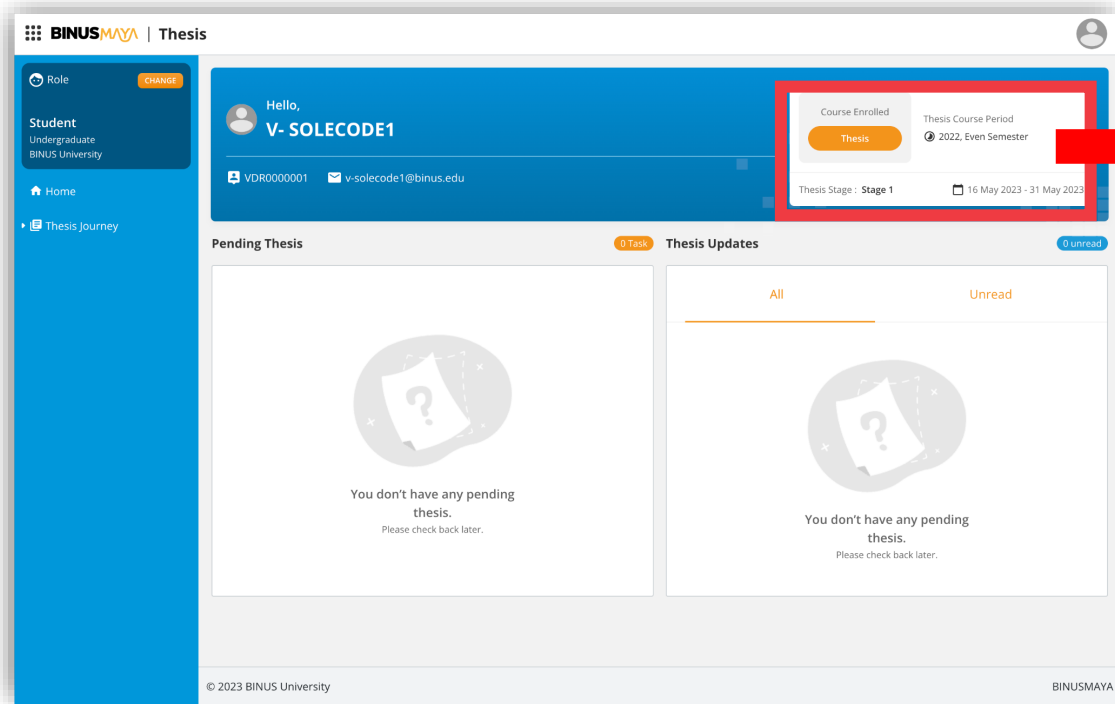

The background is a solid blue color. On the left side, there are two overlapping circles of a lighter blue shade. The word "Homepage" is written in white, bold, sans-serif font, positioned in the center-left area of the image, overlapping the circles.

Homepage

Pada Homepage, mahasiswa dapat melihat Enrollment Card yang dapat melihat informasi mengenai:

- A. **Course Enrolled** : Status Registrasi Thesis
- B. **Thesis Course Period** : Periode Pengambilan Thesis
- C. **Thesis Stage** : Informasi thesis saat ini sedang berada di tahap apa dan periode pengerjaannya

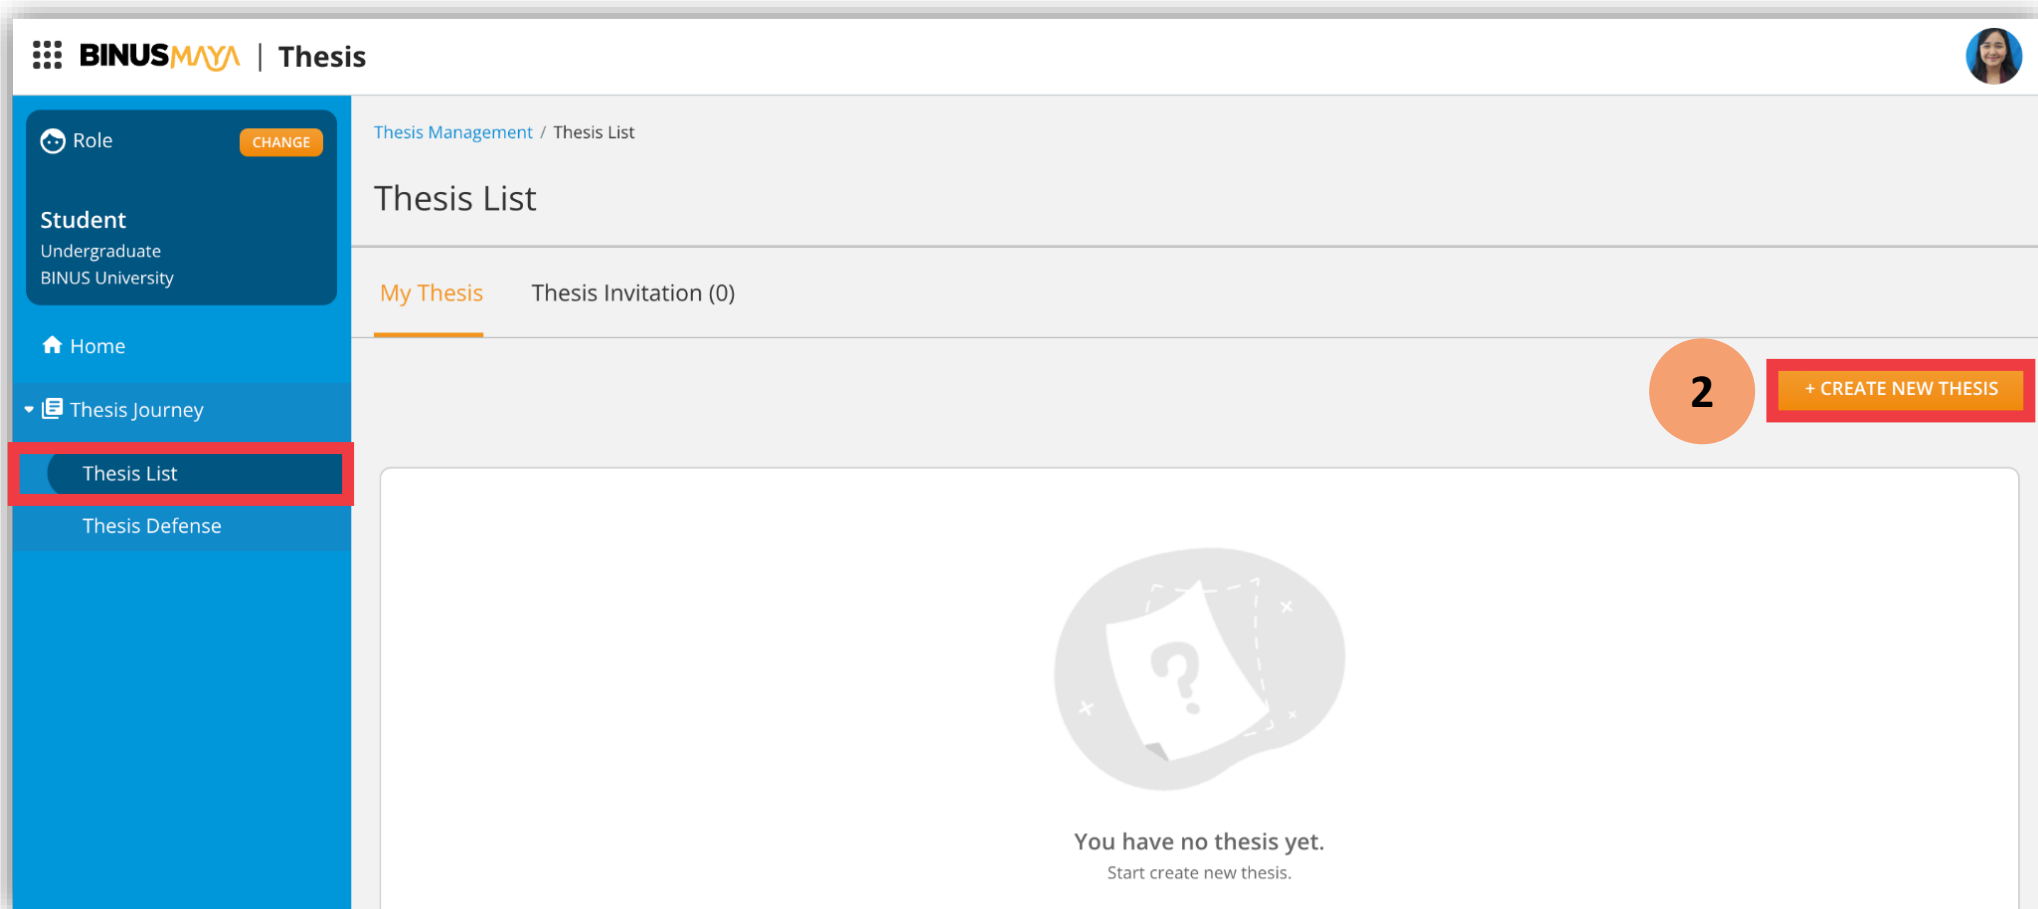

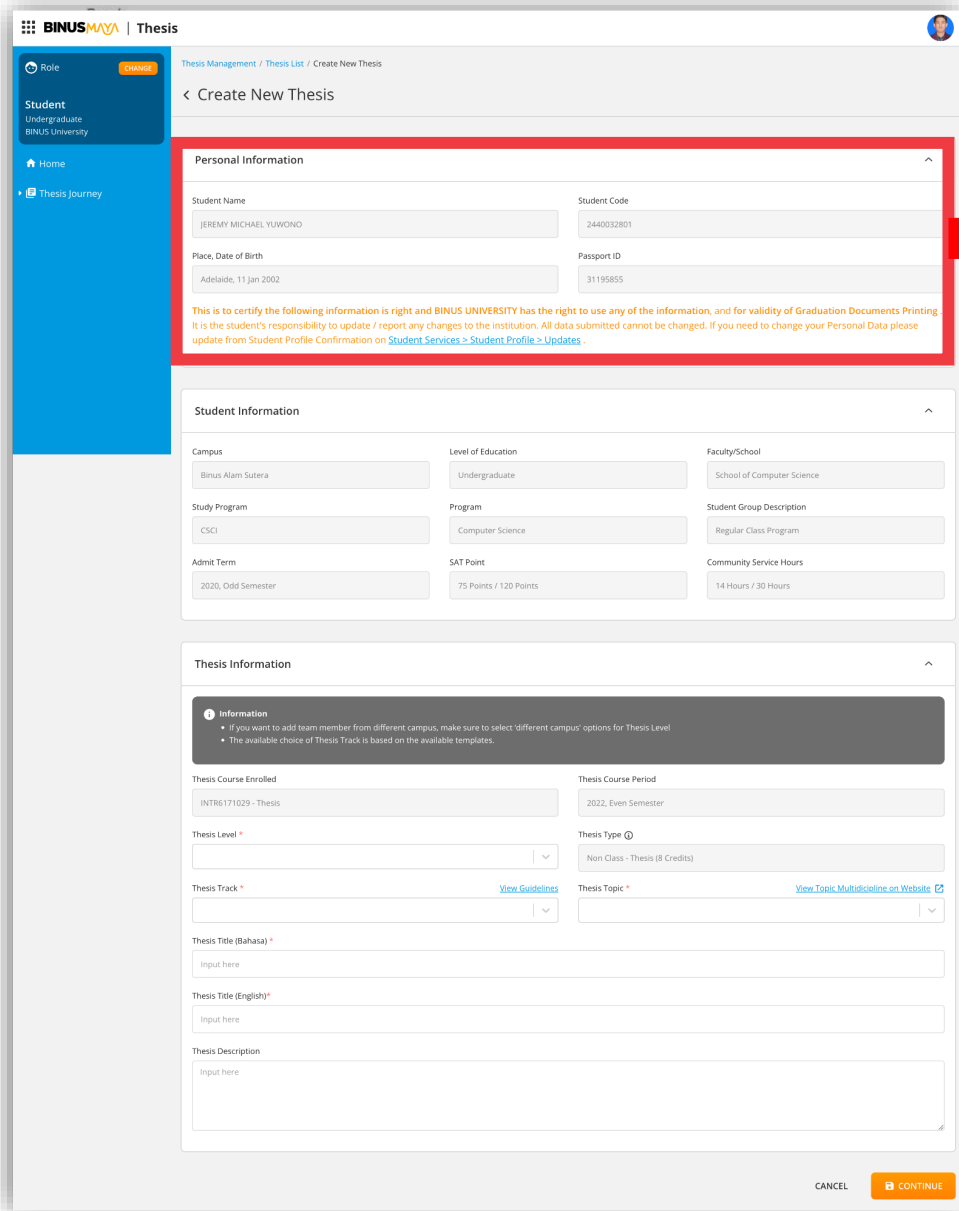

Create New Thesis

1. Akses Menu
2. Pengecekan Personal Information
3. Pengisian Thesis Information
4. Pengisian Request Thesis Supervisor

Berikut langkah langkah membuat thesis baru (Create New Thesis):

1. Pilih Menu **Thesis Journey**, kemudian pilih **Thesis List**
2. Pilih button **Create New Thesis**

Personal Information

Thesis Track	Artikel Ilmiah	Thesis Topic	Inteligensia Semu
Thesis Title (Banasa)	Protokol audit terdistribusi untuk transaksi yang tidak dapat dilacak		
Thesis Title (English)	Distributed auditing protocol for untraceable transactions		
Thesis Description	Data integrity is a property that cloud service providers (CSPs) have focused on. The data integrity checking is assigned to third-party auditors (TPAs) to avoid invalid data storage in CSPs. Nevertheless, this type of mechanism is vulnerable to many threats, including insider/outside adversaries. Moreover, several threats still exist with its presence, such as deleting, changing, or destroying the recorded data. The study presents a blockchain-based distributed auditing (BB-DA) protocol for auditing confidential/untraceable transactions in a distributed manner. The BB-DA protocol provides message/transaction confidentiality, user privacy, and security

Instruction & Brief Material

Instruction

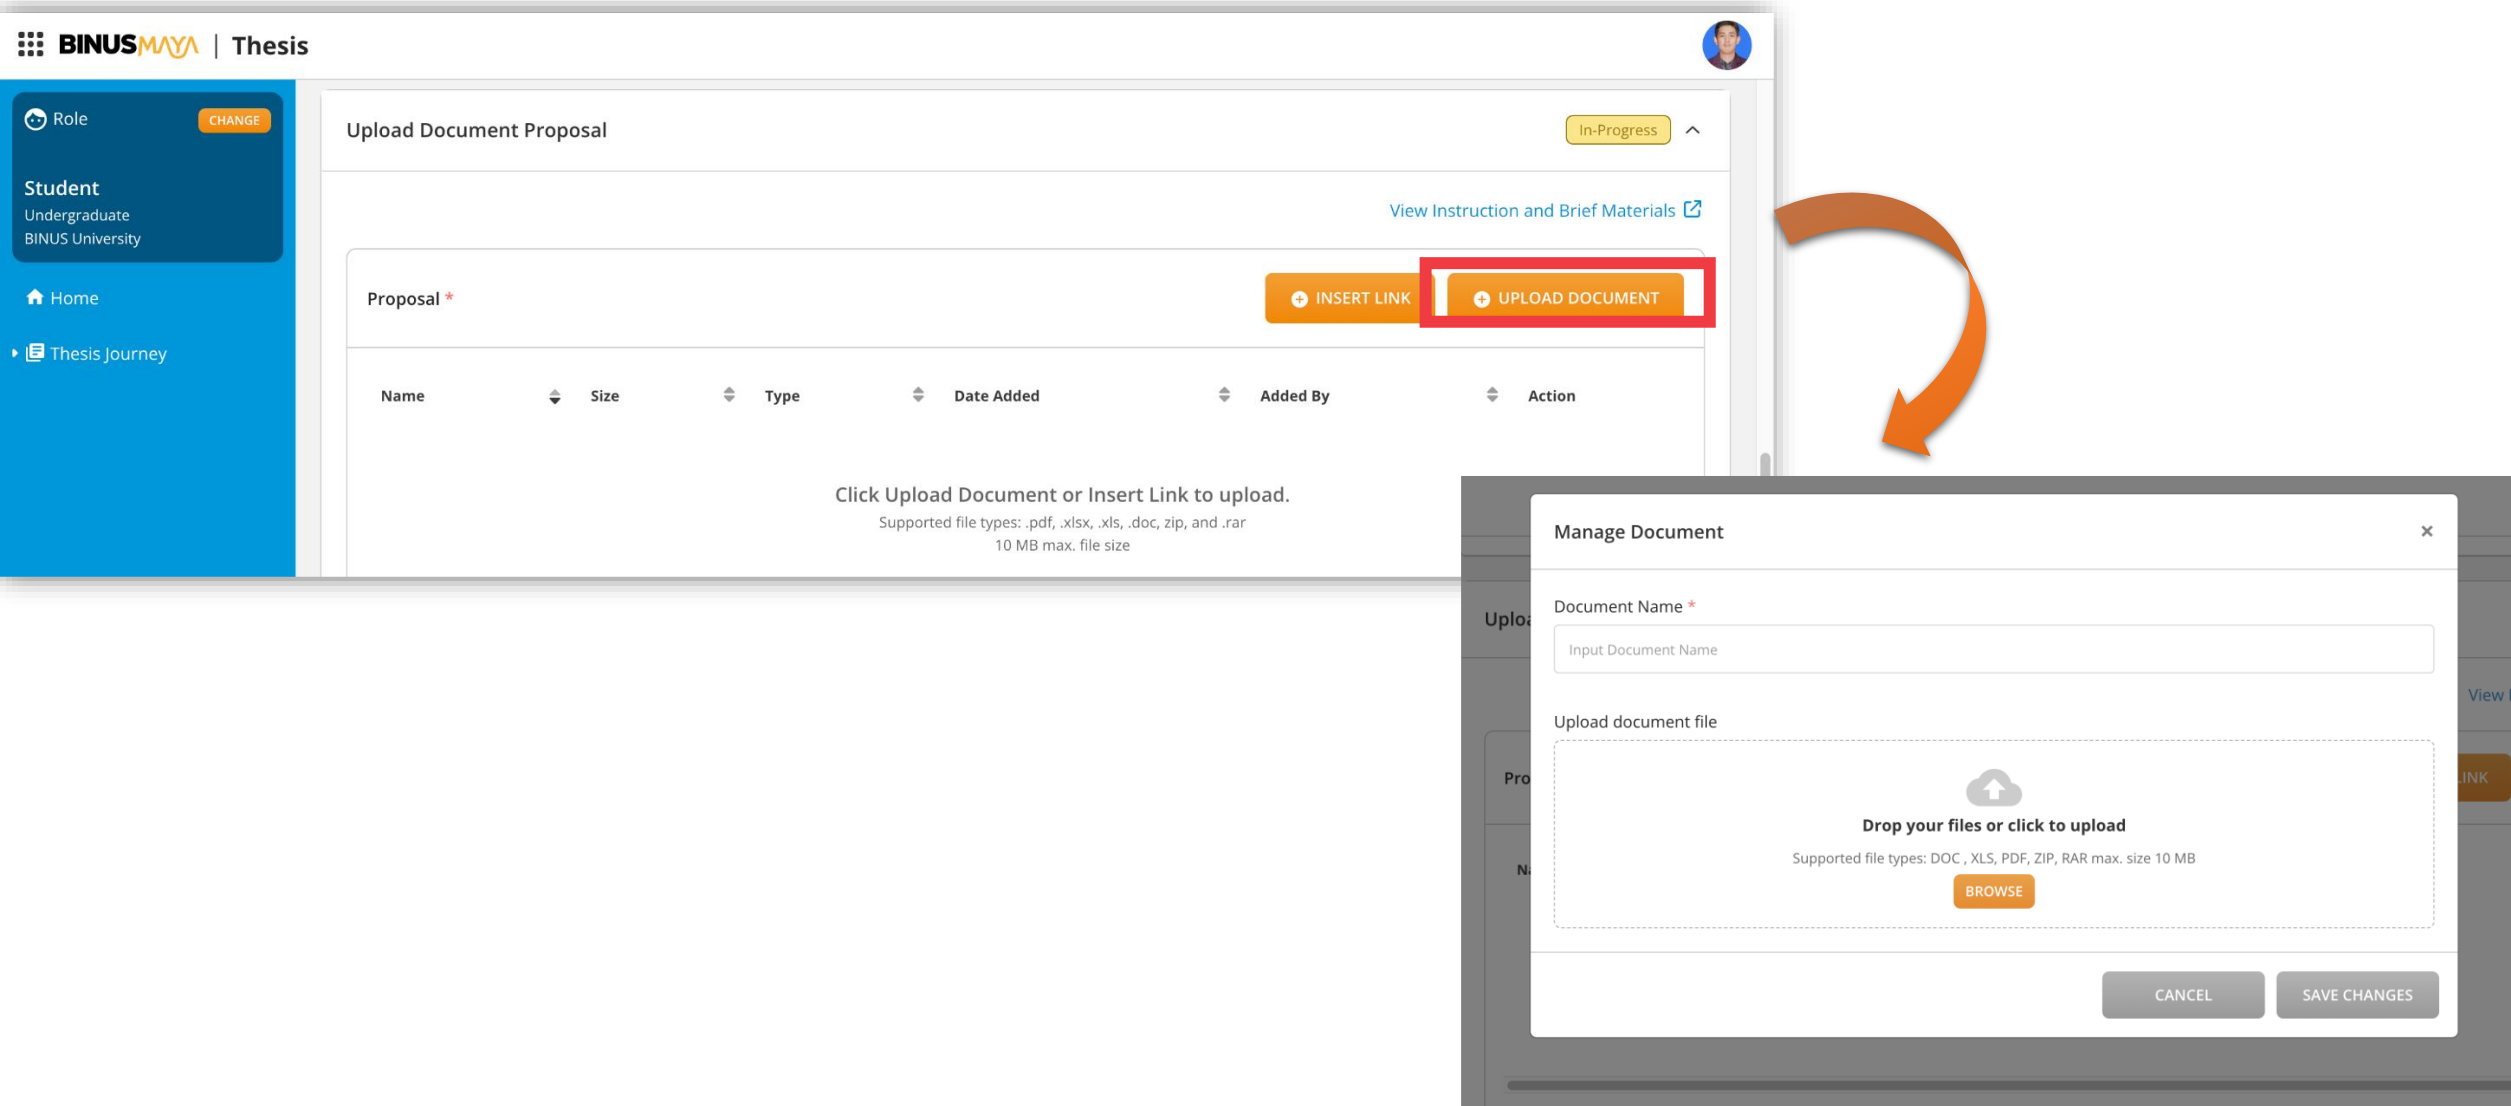

Apart from counting words and characters, our online editor can help you to improve word choice and writing style, and, optionally, help you to detect grammar mistakes and plagiarism. To check word count, simply place your cursor into the text box above and start typing. You'll see the number of characters and words increase or decrease as you type, delete, and edit them. You can also copy and paste text from another program over into the online editor above. The Auto-Save feature will make sure you won't lose any changes while editing, even if you leave the site and come back later. **Tip: Bookmark this page now.**

Thesis Consultation (For Non Class)

Tahap ini adalah tahap dimana mahasiswa dan dosen melakukan **bimbingan**.
Data bimbingan wajib dicatatkan pada aplikasi ini dengan cara pilih “**Create New Session**”

A screenshot of a web application interface for thesis consultations. The interface has a white background with a light gray border. At the top left, the word "Consultation" is displayed in a dark gray font. At the top right, there is a yellow button labeled "In-Progress" with a small upward-pointing arrow to its right. Below the header, there is a large orange button with a white plus icon and the text "CREATE NEW SESSION". This button is highlighted with a thick red rectangular border. Below the orange button, the text "There are no session yet" is centered, followed by the link "Start create new session" in a smaller, lighter gray font. At the bottom of the interface, there is a section titled "Attendance Summary" with an information icon to its right. Below this title, a user profile is shown with a circular avatar, the text "2440032801 - JEREMY MICHAEL YUWONO (Binus Alam Sutera)", and a status indicator "0 Session of 2 Sessions" where "0 Session" is in blue.
